

# Nature Journaling: My Secret Plant

Find a plant. Use the space below to draw and describe it. Include enough details that someone could find your specific plant in a group of lots of plants. Then share this page with someone and have them try to figure out which plant is yours. (You can do this in person. Or you can take lots of plant pictures, including your plant in one picture, and see if they can pick out your plant from the pictures.)
